

PHIFER
BALCONY SCREENS

GALAXY 2.0

TRANSFORMING
BALCONIES!

PHIFER INCORPORATED was established in the year 1952 in Tuscaloosa, Alabama, USA as a weaver of Aluminum insect screening and has evolved itself as a leader in the insect screen, solar control fabrics, drawn wire, engineered products and designed fabrics industries. The success of PHIFER has been achieved as a result of adhering to Mr. Phifer's philosophy of providing our customers with QUALITY Products, On Time, and At the Right Price.

With an expertise of 70 years, Phifer has developed cutting-edge screening products for Balconies that emphasizes clear outward view while offering 100% daytime privacy and 80% protection from sun's heat.

VISION

To Excel in Everything, We Do

Phifer's commitment to Quality Excellence, Safety Excellence, and Service Excellence give it many opportunities to excel in its every undertaking.

MISSION

To Serve Customers

Serving Customers has been and will always be Phifer's infinite goal and is the basis of the quality policy that Mr. Phifer had set into motion back in 1952.

TRANSFORMING BALCONIES!

PHIFER
BALCONY SCREENS

Phifer Balcony Screens, the world's best-selling balcony screens are made up of sun-control fabrics that can efficiently reflect, absorb and disperse Sun's heat. It is designed to cut off 80 % of the heat and block harmful UV rays from entering the house. The opaque from the outside and clear view from the inside quality of the Phifer Balcony Screens guarantees 100% daytime privacy inside the living spaces thereby, making the entire living space cozy and comfortable. Phifer Balcony Screens transforms balconies into a style statement and offers the luxury of enhanced space by giving you the liberty to transform the balcony into a personal gym, study room, yoga room, children's play area, or even an extra bedroom.

ADVANTAGES

HEAT PROTECTION

Protects the interior space from heat & UV radiation by cutting down 80% of the heat penetration

100% DAY TIME PRIVACY

Guarantees complete daytime privacy

RAIN RESISTANT

Keeps your balcony dry by shielding it from heavy downpours during monsoon season

PHYSICAL BARRIER

Restricts entry of birds & insects into the living area which is very essential in urban living

HIGH VISIBILITY

Allows air and natural light inside and provides an excellent outward view of the surroundings

DUST REDUCTION

Prevents dust penetration and shields the interior space from air pollution caused by heavy traffic

CERTIFICATIONS

MICROBAN

Lifetime protection from bacteria and fungus

GREENGUARD GOLD

No harmful emissions into the living space

MIF CERTIFIED

Certified for effective UV protection and preventing sun damage to the skin and eyes

FLAME RETARDANT
